

# KEYNOTES

## February, 2012

Volume 212 Number 12

### PRESIDENT'S MESSAGE

by Larry Schwerin

Happy New Year to everyone! It is hard to believe that we perhaps have experienced the worst of Winter and that

Spring is on its way.

Kitsap County environmental officer, Steve Heacock, addressed the Club at the January meeting to discuss and explain the Critical Areas Ordinance, particularly as applied to lot maintenance. Our Lot Maintenance Committee Chair has sent a follow-up letter to Kitsap County seeking further clarification. It appears clear that any lot maintenance activity in Driftwood Key wetlands or other critical areas will need to be coordinated in some fashion with the County.

Inclement weather delayed the scheduled meeting with the Reserve Study representatives last month but it will be rescheduled soon to review the study and begin developing long term plans.

The Governing Documents Committee amended charter was presented and adopted. The Committee will continue its work to prepare proposed amendments to improve our covenants to present to the Board and ultimately the community.

The Board approved the first phase of our Security System Upgrade Project that will entail installation of cameras and associated wireless communication equipment in the clubhouse and pool areas. The other four phases of the Project will be considered in future months.

Spring will bring some community improvements. The fencing around the playground will be installed, planting of the Habitat Area will continue and substitution of additional parking and landscaping for the current boat trailer yard will be implemented. The Club will not renew any leases for boat/trailer parking and will not lease any additional spots except on a pro-rata basis to expire June 30, 2012.

Next month, in addition to the regular agenda, we anticipate consideration of improvements, policies and modified lease arrangements for the Driftwood Key Marina.

Your Board of Trustees looks forward to the opportunity to serve you. We encourage member participation in the operation of the Club by attending the Club meetings, serving as committee members, becoming candidates for Trustee and participating in and enjoying community events. We truly welcome your involvement and encourage it.

We will publish the proposed agenda in advance of the February meeting and send it to you by e-mail if you authorize us to do so. We wish you a wonderful and prosperous new year.

### **SECRETARY'S REPORT**

*by Mary Bryant*

Your Driftwood Key Club Board of Trustees continues to work hard on behalf of our neighbors. The board and attendees heard a presentation by the Kitsap County Community Development Department on lot maintenance on wetland lots. More information will be forthcoming on this topic. At the January board meeting the trustees

- ◆ Approved the installation of Security Cameras in the pool area to ensure continued safety when using that wonderful amenity.
- ◆ Approved another fun event—the Valentine's Spaghetti Dinner on February 12<sup>th</sup> at 6 PM—tickets can be purchased at the office
- ◆ Approved the governance documents committee's covenant work plan that should result in some amended covenants for your consideration later this year
- ◆ Referred to the Finance Committee the task of developing a relief fund to assist DKC residents who may be having difficulty paying their full dues in these tough economic times.

All of the work of the board and committees could not be accomplished without the tremendous volunteers who give so generously of their time and talents. Thank you to all who help make Driftwood Key a wonderful place to live.

### **POLICY AND PROCEDURES COMMITTEE**

*by Don Jones*

Following our new format (1<sup>st</sup> and 2<sup>nd</sup> readings over a two month period), the following policy documents were presented to the Board in December (1<sup>st</sup> reading) for final action in January (2<sup>nd</sup> reading): Board Communications (BR07); Member Voting (BR04); Balloting Guidelines (BR05); Executive Session Protocol (BR12); Board Secretary Responsibilities (OC04). All five policies were approved by the Board at the recent January business meeting. Copies may be obtained through the Office.

The following policy drafts are being reviewed by the Committee with an eye towards presenting them to the Board (1<sup>st</sup> reading) in February: ACC Chair Responsibilities (OC06a); ACC Approval Process revisions (OC06b); Office Operations Policies (CP07); Club Record Keeping (BR10).

The Board has requested that all permanent standing committees develop charters. The charter format includes: Statement of Purpose; Membership and Meetings; Scope of Activities. Committee charters approved recently by the Board: Finance (OC11), Neighborhood Emergency Preparedness (OC17) and Governance Documents (OC12). Charters currently being prepared and reviewed for the following committees: Public Safety (OC10); Policy and Procedures (OC14); Building and Grounds (OC16); Events and Fund Raising (OC18); Club Communications (OC19); Lot Maintenance (OC20).

As you can see from the above summary, the Policy and Procedures Committee has been very active. If you would like to influence the final result of the above efforts, please contact me or our Board

## **BUILDINGS AND GROUNDS/POOL**

*by John Remington*

### **Buildings and Grounds/Pool.**

**Playground fence.** No change. The Brooks were contacted again and said they would check the status of the stored materials to note any progress with the curing of the green wood. No feedback from them as of this date. Post holes will be augured and construction started in the next several months once the materials are sufficiently cured.

**\$2,500 Backyard Habitat Grant for removal of noxious weeds at 2 acre wetlands behind Clubhouse.** Planting of over 200 plants completed, invoices submitted and final payment from the County received.

Contact with Carin Anderson, of Kitsap County, who worked with us on the grant, will be maintained to explore the possibility of additional Grant monies for correcting the drainage into and from the area and for a soft bulkhead to surrounding properties.

**Clubhouse entry light.** The Caretaker has replaced the burned out ceiling fixture at the Clubhouse entry vestibule with a new fluorescent fixture. Members will no longer need to turn on the upstairs stairwell light to see where they are going.

**Pool Committee (Alan Arnesen)** Both of the pool filter pumps have been rebuilt and are back in service. The pool committee will be meeting over the next few months to plan a workday in the spring to get ready for opening day, review of operating days and hours and future maintenance and improvements. The pool committee will meet January 26th at 7pm and February 21st at 7pm.

The camera and wireless system is still under review by the board. We hope to have a limited system in place by pool opening day.

**Storm Water Committee (Alan Arnesen)** Kitsap County will begin work on the storm water control for the south end of Driftwood Key this year. As I understood from my last contact with the county they will use their existing right of way to improve the storm water control. No amenity lot owners agreed to grant them an easement.

The County will begin some preliminary design work on lot 54 due to the membership voting to allow its use for storm water control. They will be requesting permission for access in the near future. They will also be working on improving the Canal lane drainage and assessing its use for storm water control.

We hope to see a lot of work in the Driftwood Key area this summer to get our storm water drainage problems under control. The next meeting date for the Stormwater Committee will be set and announced later.

**GHAAC.** January 10, 2012 meeting had three principle speakers; Larry Keeton on County regulations for sandwich Board signs, Jeff Shea with information regarding speeding and safety in the Driftwood Key area and Sandra Staples Bortner, Executive Director of the Great Peninsula Conservancy. Not enough progress on any of them.

- ◆ **Sandwich Board regulations** are still being evaluated and updated. No decisions yet.
- ◆ **Speeding.** The County study of speeding and safety throughout Driftwood Key was instead expanded by them last fall to include the surrounding communities. They were to have reported the results of that two to three month expanded study at the January GHAAC meeting and the attendance at the meet-

ing reflected the widespread interest in this. Apparently the in-house study was never done, or at least no results were given. Instead the County announced that they are going to spend \$50,000 to go out to an independent consultant to do a study. This statement met with enthusiastic disapproval and it was noted by several attendees that both the problem and the solution, at least in the DWK area, is fairly obvious to DWK residents and can be implemented for a fraction of that \$50,000 amount.

The Great Peninsula Conservancy. This much needed organization is now in place but no funding has been raised yet. This volunteer group has until March of 2013 to raise the funds to purchase the 7000 acres of greenway, which is in five separate tracts, and preserve it for recreational use. If the purchase does not occur before that date the Olympic Property Group will begin to sell it off in 20 acre residential tracts and the opportunity will be gone forever, and so will eventually the many miles of existing trails and the new ones that would have been created.

Next GHAAC meeting: Tuesday, March 13, 2012.

### **OH, M' GOSH, WE ARE 50!**

*by Gay Davis*

DRIFTWOOD KEY is 50 years old. Yes, that's right. In 1962 Driftwood Key Club was incorporated—land had been cleared, lots were being platted, and people were buying properties to build homes. This year we will celebrate our golden anniversary.

One of the ways to commemorate this 50<sup>th</sup> anniversary is to prepare a community history of Driftwood Key to permanently record how we began and the many changes and achievements along the way. Such a history would contain photographs, stories, maps, documents, newspaper articles, and other memorabilia which would provide an historical account of our community for us and those who follow us.

Our heritage is enriched by those who have gone before and by what has transpired to create the community that we now enjoy. This Driftwood Key record could be permanently placed in the clubhouse, perhaps in a display case, so that it is readily accessible to those interested. It could provide the basis for a brief handout given to new residents and it could be periodically updated to provide a continuing story of our community.

To create a rich and beautiful community history, we will need people with skills in art, research, writing, and interviewing as well as those just willing to work on putting together the history. It would also be helpful to have a videographer to help record some of the interviews with early owners and prepare a brief video history to compliment the written history. Anyone in the community who would enjoy working on the committee to develop this history, especially you artists, researchers, and writers, please contact Gay Davis. Our first committee meeting will take place the latter part of February.

## **DOCKS AND WATERFRONT**

*by Bill Buegel*

### **MARINA**

The Marina committee met Thursday January 12th at 3PM with 9 members and a visit from Dietmar Hell. The main topic was the anticipated CPI inclusion to the marina leases to ensure the reserves necessary and required for the future replacement of the marina structures.

The committee with the assistance of Dietmar agreed in principal what was necessary and will complete the agreed upon figures to present to the board prior to the February meeting. These figures will also be presented to the lessees prior to the meeting for their input.

Also discussed was the sun setting of the 20ft slips as they have become cumbersome and outdated to today's so-called 20ft boats. Most boats identified as 19 or 20ft boats are actually anywhere from 22 to 24ft in length and make it almost impossible to maneuver within the confines of our so-called 20ft moorage. As these spaces are vacated they will be re-designated as 35 or thirty ft slips. The remaining 20ft slips will be reconfigured to deploy two 20ft slips and one 30ft slip to allow ease in maneuvering until they are all phased out. At this time there are only three names on the 20ft waiting list and all have declined twice for a slip.

The committee also recommended providing an electrical outlet at the pump-out and the east intersection of the docks to provide extra maintenance outlets. These outlets will be locked and the Harbor Master upon request will unlock the outlet for a 24hr period.

This spring we will replace the anti-siphon valve supplying the marina water to an above ground configuration as required and will provide a garden standpipe near the Marina office.

We are also exploring the replacement of the high voltage bulbs in the solar light fixtures to LED low voltage units to make these fixtures usable throughout the year instead of just being head knockers at high tide.

The new all aluminum gate should be completed this February with only the cost of materials charged to the Marina budget at a considerable savings verses the bids for the same work, this will also include a new closure to replace the cable and weight system we use now.

Also as a reminder the boat storage area should be vacated by August one, there are a number of secure storage facilities in the area for those of you without room on your property. The committee adjourned at 4:45PM.

*The Keynotes is published monthly at Hansville, Washington by the Driftwood Key Community Club. The purpose of the Keynotes is to give the membership an overview of the Board activities, to provide information about activities and to highlight issues important to the members. Comments are welcome.*

**LOT MAINTENANCE**

*by Constance Borgomainerio*

At the January 12 Board meeting, Steve Heacock of the Kitsap County Department of Community Development (DCD) met with the Board and community members to discuss the Critical Areas Ordinance (Title 19) as it pertains to Driftwood Key properties, wetlands and amenity lots. As you may know, several members of Driftwood Key are losing their views due to the overgrowth allowed by some amenity lot owners. This meeting was to clarify what property owners can do to comply with Driftwood Key's covenants and County ordinances.

If you have received a view complaint because your lot is causing someone to lose their view, then it is your responsibility to comply with the Uniform Protective Covenants which you signed on purchase of your property. The Board will be looking at current cases and taking appropriate action.

According to the DCD, there are ways to properly maintain wetlands that include *removing* alder trees and replacing them with low growing shrubs. The Hood Canal Coordinating Council's report "Hood Canal Aquatic Rehabilitation Program for Low Dissolved Oxygen" states that red alder trees negatively and significantly impact the nitrogen levels in the Hood Canal. Mr. Heacock agreed that these trees would be best removed and replaced with low-growing "friendlier" vegetation, e.g. red twig dogwood.

Your Lot Maintenance Committee will be glad to assist if you have any questions or concerns.

**HOW MUCH ARE OUR VIEWS WORTH?**

*by Gay Davis and Marilyn Johnson for the Governance Document Committee*

Buying in Driftwood Key was accompanied by important changes and expectations for most of us—perhaps the opportunity to boat, to spend time on the beach, to enjoy the pool and club activities, or just enjoy the beautiful views.

Views of the Olympics, Hood Canal, the marina and inner bays draw many to our community—some even buy in DK exclusively for the view. Whatever the reasons that resulted in the purchase of property in DK, the view is a major factor in the quality of life here and the financial investment we make in our properties.

Let's look at the economics of views the way the Kitsap County Assessor does. There are around 780 lots in DK. About 70% of these lots are either waterfront (about 130 lots), or the assessor has said the lots have a mountain and/or water view (about 415 lots).

The Kitsap County Assessor rates each non-waterfront property for view and gives it a rating from none to very good (with 9 possible view rating scores). Each rating receives an increase in property valuation. In 2010, a "fair minus" view was worth \$18,480, while a "very good" view was worth \$67,760! The average increase in value for a view lot in DK is around \$31,000. DK owners had over \$16,000,000 in cumulative assessed evaluation for views alone—that is a huge amount of property value!

The 30% of DK lots that have no view also have an increase in their property values because of the value of the view properties surrounding them. Characteristics of a "neighborhood" always influence property values and location influences home values more than any other factor.

Views, and the opportunity for a harbor, were what originally attracted the developers of DK. Early photographs show that the DK area was clear-cut to create the greatest number of beautiful views from the developed properties. From the beginning, our governing documents have contained language aimed at protecting our views, such as controlling heights of houses and restricting large trees and view-blocking vegetation. The language in our governing documents has long needed revising to make them current with the legal challenges of the times.

In response to community desires to protect views, the Governance Document Committee is working on clarifying and strengthening view protection language by correlating the language in the Articles and Bylaws with the language in the Covenants. This will minimize the risk of legal challenges and result in clarifying the rights and responsibilities of property owners in Driftwood Key. The committee welcomes any comments and suggestions that members may have regarding this matter. Please either e-mail the committee chair ([MJ@Driftwoodkey.com](mailto:MJ@Driftwoodkey.com)) or talk to any Trustee.

**PUBLIC SAFETY***by Constance Borgomainerio*

According to the latest information from the Kitsap Sheriff's Department, there has been a very large increase in residential burglaries in the past few months. The areas of Lofall, Clear Creek, Kingston and Hansville have all been included in the most recent spree.

The general MO is nearly universal. With a few exceptions they are occurring during the day (9am-5pm) with the hopes of encountering empty houses while people are at work. Historically thieves will just go door to door knocking on doors and if somebody answers will give some excuse for being there, (ask for a person who they know doesn't live there, ask to use the phone for a car break down, ask to borrow a gallon of gas etc). If nobody answers the suspect(s) will find a path of least resistance into the house, checking for open doors and windows, then generally prying open a window or kicking in a door.

The thieves have been taking gold and jewelry. There are a number of reasons; Cost of gold is very high, it can be sold at a large number of places, it isn't traced by serial number (like a stolen TV may be), vehicles are not required to

transport a pocket full of gold stolen from a person's house so a suspect on foot can get away with a high value of property in their pockets.

Detectives and deputies who've been working on these cases state that there have been between 15-20 people arrested (at various states of incarceration). Generally pattern crime can be curtailed with the arrest of a handful of people but the scale of this is quite unusual.

What is strongly recommended is getting an alarm. Most of these houses were locked, deadbolts, etc., but thieves can always find a way in. The key is to have a reporting alarm that will summons law enforcement in the event the alarm is tripped.

Other good ideas are to keep high value jewelry items in a safe that bolted to a structure (floor/wall). Fire safes prevent damage from fire and only offer a "suitcase" for burglars. It would also be prudent to make sure high value items are appropriately insured. Most home-owners policies will not cover over a set limit of financial loss of jewelry. In some cases there have been reports of \$25,000 to nearly \$100,000.00 worth of gold being stolen.

Keeping information about possessing gold or valuables secret is also a good idea. The less people know about your personal property the better.

**ARCHTECTURAL CONTROL***by Bill Buegel*

The ACC approved and monitored four projects for 2011. These included two major additions: one at the Asp residence, 37798 Hood Canal Dr., providing an extra 750 approx. sq. ft. to the second floor; and an additional 480 sq. ft. to the second floor addition to the L. Davis residence, 37880 Buck Rd. Both of these projects have been completed regarding the exterior construction and have fulfilled all ACC requirements and their deposits have been returned.

We also approved an addition to the living room at the J. Christofferson residence at 4985 Canal Ln. that has been completed. We also had one fence project at the M. Amundson residence that has been completed.

It should be noted that all of these Driftwood Key members and neighbors followed our ACC requirements to ensure no compromise to their neighbors and our community, and it was a pleasure meeting and working with all of them.

**TREASURER'S REPORT**

by Dietmar Hell

**Account Status:**

As of December 1st, our bank account balances were as follows:

Acct: 10100: Club Operating and Maintenance (O&M)	\$10,891
Acct: 10110: Club O&M Savings	\$80,366
Acct: 10120: Club O&M Reserve Savings	\$105,043
Acct: 10200: Marina O&M Savings	\$49,478
Acct: 10210: Marina Future Replacement Savings	\$114,818
Acct: 10300: Facilities Maint. & Restoration Fund Savings	\$22,888
Acct: 10310: Facilities Maint. & Restoration Fund CD	\$5,495*
Acct: 10400: Harbor/Dredging Savings	\$10,601
Acct: 10900: Architectural Control Escrow	\$8,811

\* Holdover from previous years. Has not been previously reported.

**Budget Status:**

The budget status through January 4th is as follows:

Revenue	YTD Revenue	YTD Budget	YTD Budget Variance #	Total Annual Budget
40000 · Club Revenue	\$169,992	\$170,341	-\$ 349	\$174,404
41000 · Marina Revenue	\$85,088	\$87,344	-\$2,256	\$88,700
42000 · Fac. Maint. & Restor. Fund Rev. rRRevenue	\$11,949	\$12,304	-\$ 355	\$12,500
43000 · Harbor & Dredging Fund Revenue	\$111,486	\$113,104	-\$1,618	\$113,300
45000 · Other Income	\$2,338	\$0	\$ 868	\$0
<b>Total Income</b>	<b>\$373,045</b>	<b>\$381,760</b>	<b>\$-3,710</b>	<b>\$388,904</b>

# - A (negative) amount indicates that we realized less income than budgeted for this time in the FY

Expenses	YTD Expenses	YTD Budget	YTD Budget Variance #	Total Annual Budget
60000 · Club Expenses	\$99,601	\$79,688	\$19,913	\$ 121,821
61000 · Marina Expenses	\$36,335	\$28,332	\$8,003	\$47,300
62000 · Fac. Maint. & Restor. Fund Exp.	\$302	\$0	\$ 302	\$0
63000 · Harbor & Dredging Expenses	\$3,254	\$3,073	\$ 181	\$5,300
75000 · Other Expenses	\$6,153	\$0	\$6,153	\$0
<b>Total Expense</b>	<b>\$145,645</b>	<b>\$111,093</b>	<b>\$34,552</b>	<b>\$174,421</b>

# - A (negative) amount indicates we have spent less than was budgeted for this time in the FY

## Explanation of budget status:

Club: The Revenue to date has improved and is now only behind the budget by only \$349. The Club expenditures are continuing to slide: Currently we are \$19,913 over the budget - mostly due to unforeseen legal expenses which continue to mount. Otherwise, the Club would only be about \$2,500 over budget for this point in time. This is attributed to higher than anticipated fees for filing and amending liens, for supplies to support the Governance Document voting process last August, and for Payroll Medical which was inadvertently omitted from the budget.

Marina: We have finally determined why the Marina Revenue does not coincide closer than what was anticipated in the budget. It turns out that when members on the slip waiting list get their slip, the deposit they paid is credited toward the lease charges, thereby reducing the income recorded. The deposits are not seen as income by QuickBooks. We have determined this can be corrected and the changes will be reflected on the next

report. The Marina Revenue is under the projected budget by \$2,045. The Marina expenditure status is continuing to worsen slightly: its currently \$8,000 over the budget. However, that amount includes the unbudgeted expenditure of \$2,681 for the Harbor Master's Office which was more than offset by \$2,846 in Donations. The real over budget amount, at this point in time, is actually more like \$5,300. Because repairs were done earlier in the FY than anticipated, the over-budget amount should decrease going forward. The expenses for the Harbor Master's Office will be capitalized for the next report and will thereby no longer skew the expense report.

Other Expenses: We have now actualized about \$4,770 in bad debt on property where we could not collect the amount due as a result of tax foreclosure sales.

**Member Delinquent Account Status:**

As of 01/04/2012 the member account status is as follows:

<u>Status Type</u>	<u>Qty</u>	<u>Amount</u>
Members with Liens Filed:	17	\$33,959
Members with Liens Pending	0	\$0
In process of being resolved	0	\$0
Members making Payments	21	\$6,940
Members with Outstanding Charges	16	\$532
Account credits to be applied next FY		<u>-\$1,187</u>
<b>Total Accounts Receivable</b>		<b>\$40,234</b>

**Members with Liens:**

The following members have liens that have existed for 2 or more Fiscal Years (listed in order of amount owed):

Studebaker, David; Keating, Michael; Walmsley, Tim; Comstock, Robert & Sylvia; Bayne, Walter & Kelly; Van Der Merwe, Carl & Karin; Amaral, Scott & Fields, Monique; Cole, Georgia; Folwell, Russell ; Somogyi, John; Cooper, Joseph; Maycock, Ian. These members make up a significant proportion of the Accounts Receivable.

**Office Operations:**

Security System Upgrades - For years the board has been discussing steps that could be taken to: supplement the safety and security of the Driftwood Key Club assets; to help protect member's personal items; and, to provide evidence to support member complaints of rule violations - especially as related to pool users. Also, it is becoming increasingly obvious that the Keri Keycard System hardware and software has become outdated, no longer meets electrical code, and probably near the end of its useful life. The security software will only run on Windows XP, thereby causing us to maintain a separate computer for no other purpose than to run the Keri software. Further, the system communicates with the Marina and Launch Ramp gate keycard access through analog dial-up modems that require us to maintain two separate dedicated phone lines for gate access control.

In light of the above, we have discussed with Allied Security and other firms, the possibility of upgrading our Security System hardware and software so we can add the security cameras, eliminate the analog modems and related phone line costs, and upgrade the software without needing to re-enter the entire database of 1000 cards. Review of the requirements indicates that such upgrades are indeed possible and can be reasonably implemented with some volunteer support. To realize the upgrades will require installation of a wireless network to handle the security cameras and keycard readers. At the same time, this installation would have the added benefit of improving the existing wireless hotspots at the Pool/Clubhouse area and the Marina. A phased approach is being

(CONTINUED NEXT PAGE)

considered for this project as follows:

1. Establish Pool/Clubhouse Camera Wireless Link, enhanced Wi-Fi, and install Security Cameras and DVR.
2. Establish the Marina and Launch Ramp Wireless Link and enhanced Marina Wi-Fi
3. Install Security System Hardware and Software Upgrades
4. Install Security Cameras and DVR at the Marina

Install Security Camera and DVR at the Launch Ramp.

A project plan has been developed, the scope of work established, and competitive bids are in process. The Board has approved Phase 1 in light of the need for cameras at the clubhouse and pool and the relatively low cost for this phase of the plan. Based on the success of this first phase, future phases will be reviewed approved and implemented one after the other. The highest cost segment is anticipated to occur in Phase 3 due to the cost of hardware and programming labor involved.

**EVENTS**

**POTLUCK**

by Susan Frank

The word is...  
Love Is In The Air.  
I wonder what that means for our  
potluck dinner fare.

Let's be creative and pull out those recipes.  
We can make our very best, so our stomachs will be  
pleased.

Even though Valentines Day will have passed,  
It doesn't mean that Love won't last.

So bring your honey and your friends,  
With place setting, beverage and food that never ends.

See you on the 25<sup>th</sup>.  
5PM social hour  
6PM dinner

Thanks go out to our January hosts.  
Thank you for starting our potluck season.

Jack and Judy Tallman  
Gary and Barb Edin  
John and Susan Frank  
There is plenty of time left to sign up and host.

**SPAGHETTI &  
WINE DINNER**

by Constance

*Borgomainerio*

Bring Your Sweet-  
heart (or Best Friend) to Driftwood Key's very  
own --

**Spaghetti & Wine Dinner**

That's right—Your Events Committee has once  
again rolled up their sleeves and rolled the pasta,  
stomped the grapes and pitted the cherries for a  
delicious banquet of fine Italian food and drink.

When: **Sunday, February 12**

Time: **6 pm**

Where: The Clubhouse

Cost: \$8.00 per person

Reservations required. Tickets are available at  
the Driftwood Key office or you may contact:

Barb Edin 638-2683  
Judy Remington 638-0533  
Marlene Bock 638-2522
